

# What Do Mandatory Public Reporting Programs Produce?

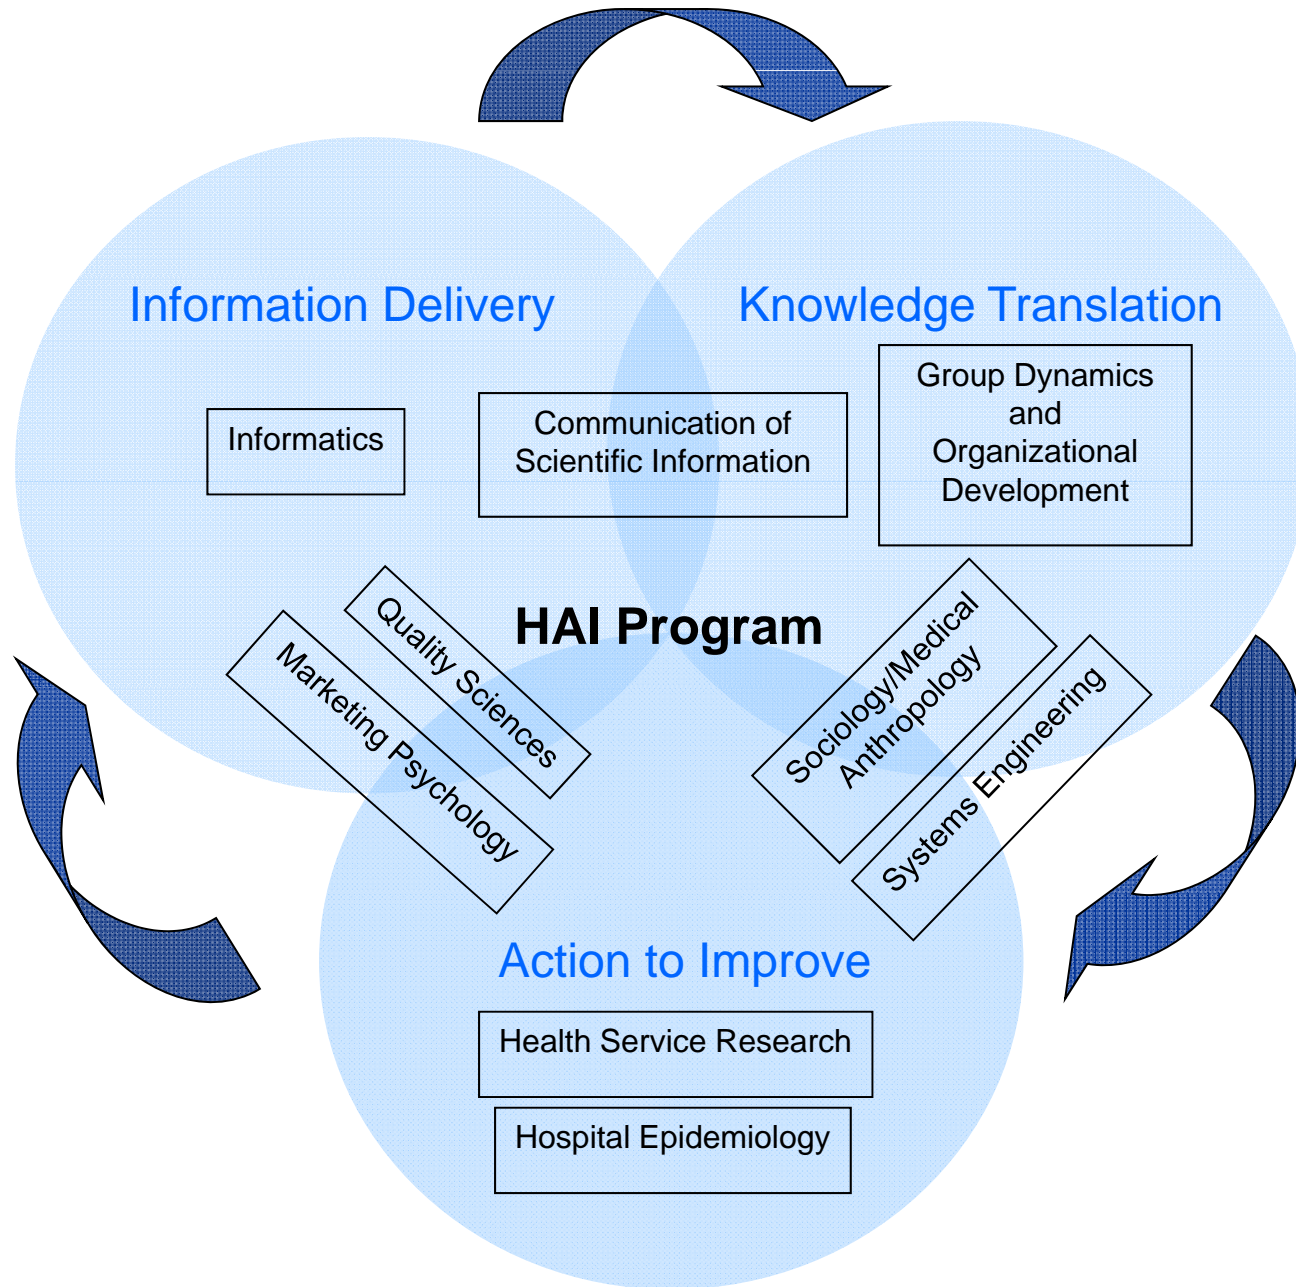

Thoughts from a Universities Council of the  
Healthcare Associated Infections Program

David Birnbaum, PhD, MPH  
HAI Program Manager

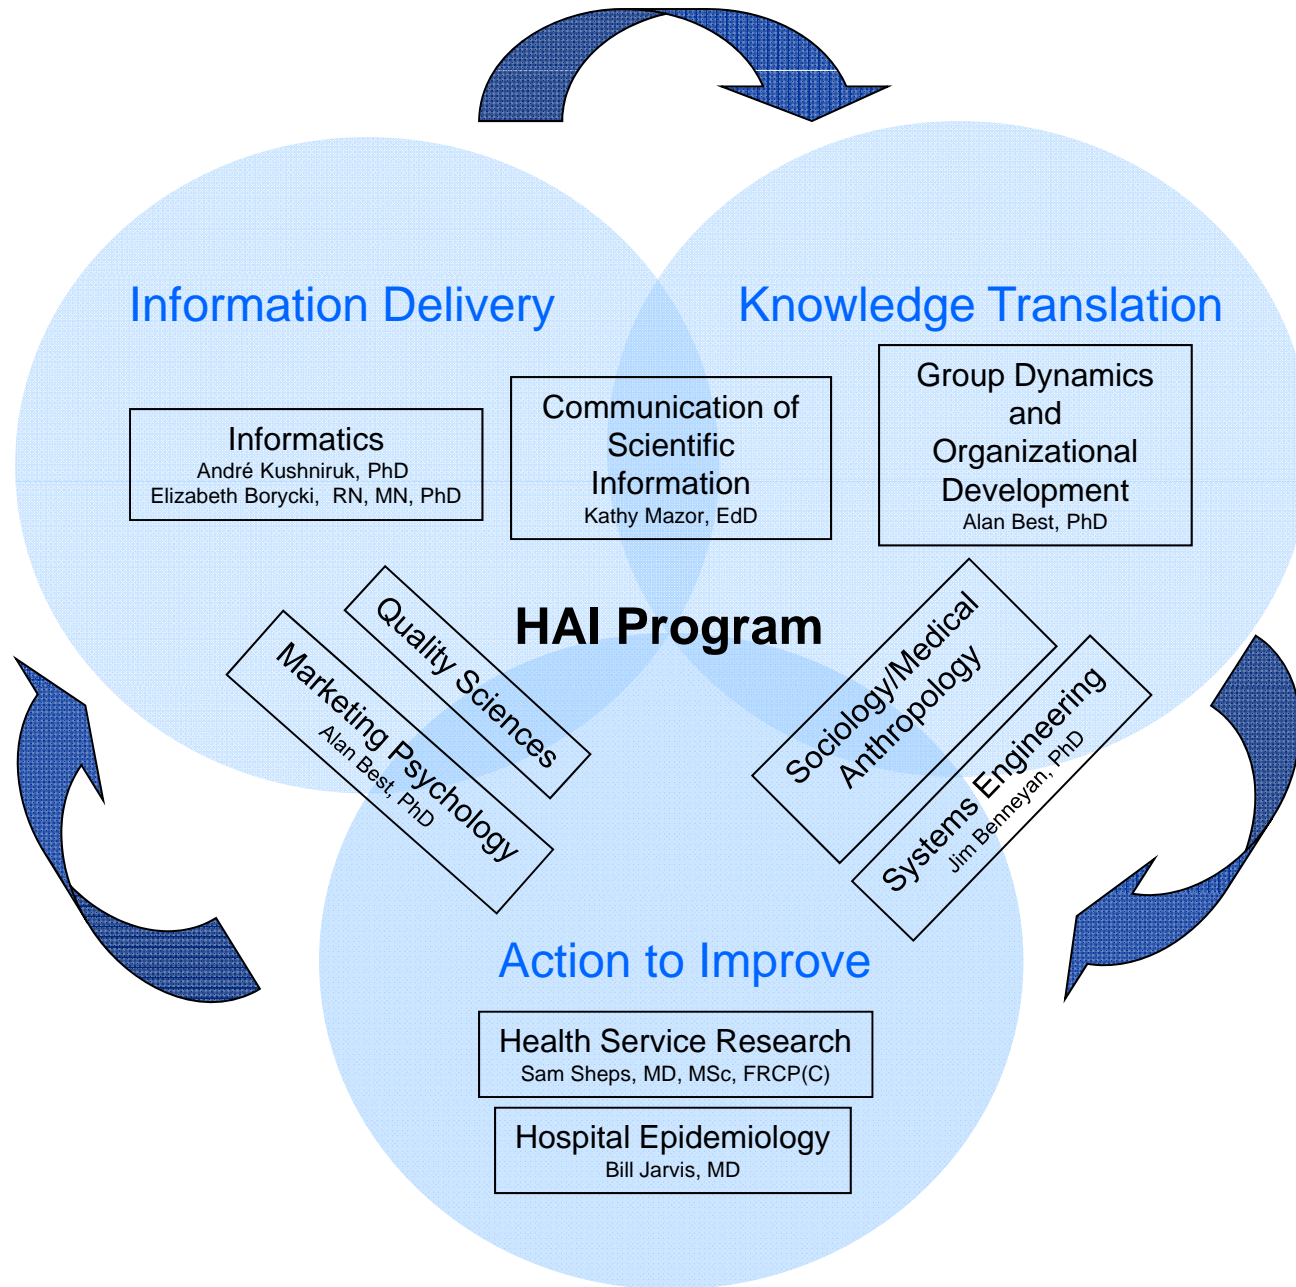

Mandatory public reporting informs the public...

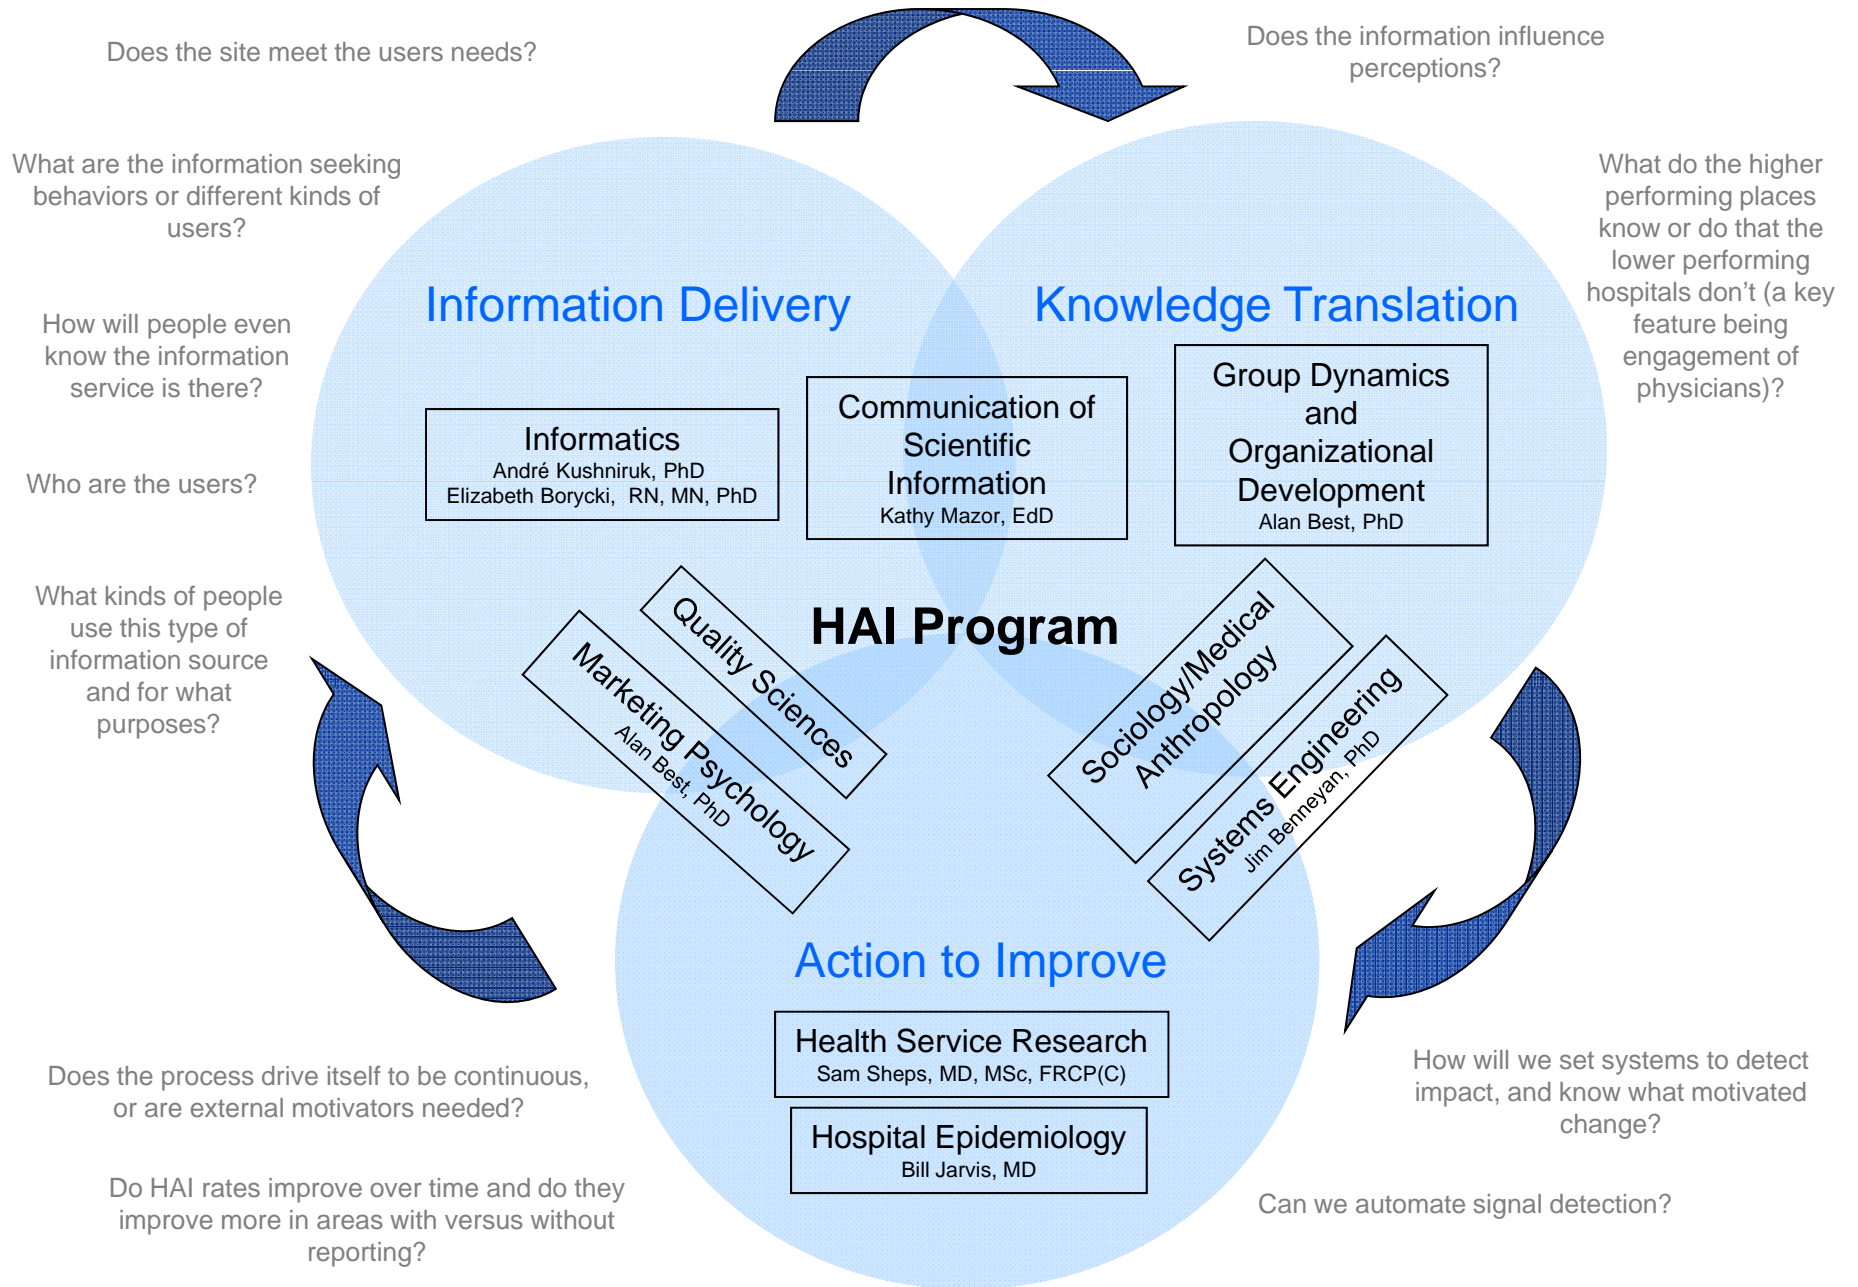

Improving our understanding of what works, for whom, in what settings

Improving our understanding of what works, for whom, in what settings

# Improving our understanding of what works, for whom, in what settings

# Senior Partners in our Universities Council
